

# WHY SPORTS?

Because a trained coach is one of the most influential adults in a young person's life. In fact, coaches who are trained in positive youth development inspire youth to:

improve their  
grades and stay  
in school

work as a team  
and set goals

be physically  
healthy

make smart  
choices about  
drugs and alcohol

learn conflict  
resolution skills,  
reducing violent  
behavior
